Implant-Supported Fixed Complete Denture

Unlike a traditional denture that is removable and gets loose after some time or while drinking water or during certain activities of the jaws, the implant supported dentures are as rigid and as firm as how the original teeth were. These are permanently fixed dentures and are the most comfortable form of dentures.

These dentures are extremely stable and will be made of ceramic and resemble the natural teeth as close as possible. This is a big blessing especially for people who have loose complete dentures, especially in the lower jaw. There is almost no ulcer formation.

Procedure

Just like teeth have roots, implants are like artificial roots that are placed in the bone. These implants are left in the bone for a few months and the bone grows around it and the implants get sealed in the bone. Once this happens it becomes like a solid foundation on which the teeth are fixed and they will be stronger than your original teeth.

Implants can be used to replace single tooth or multiple teeth

For more details about implants contact your dentist

Air quality dips on Bhogi

By Our Staff Reporter

Despite exhortations to the public to celebrate a smoke-free Bhogi, all monitoring stations in Chennai recorded an increase in air quality index (AQI) on the morning on Jan. 14, suggesting pollution due to the burning of old household items, which is a part of Bhogi celebration.

A blanket of thick smog enveloped the city including this neighbourhood, reducing visibility and bringing down air quality.

Arumbakkam recorded an Air Quality Index (AQI) of 232 $\mu\text{g}/\text{m}^3$ in the morning on Jan. 14 while it was 118 $\mu\text{g}/\text{m}^3$ the previous morning.

As per CPCB standards, AQI between 51 and 100 is considered satisfactory, 100-200 is considered moderate, 201-300 is considered poor and 301-500 is very poor and severe respectively.

**Foliage hampers walkers in Mangal Eri Park**

Dried branches are heaped adjacent to the walking track near the entrance to Mangal Eri Park (Aslathamman Temple Street, Mogappair West), inconveniencing park visitors.

P. Sargunan (a regular visitor) told this reporter that tree branches that broke and fell in the park and around it after the heavy rains last month have been accumulated and heaped adjacent to the walking track.
