LETTERS TO THE EDITOR

Low-lying tree trunk blocks way

Sir, A thick low-lying branch of an avenue tree is leaning across the road at the junction of 3rd Main Road and 6th Avenue (P Block, Anna Nagar).

It is a hindrance to school vans and water tankers, and poses danger to motorists at night due to poor visibility.

I request Chennai Corporation to cut and remove it early.
S. Shanmugam, P Block, 3rd Main Road, Anna Nagar.

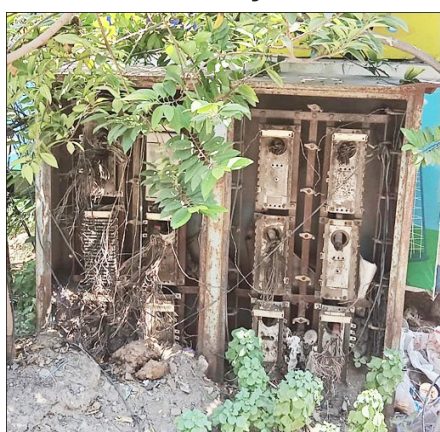

Appeal to remove defunct BSNL junction boxes

Sir, Two unused BSNL junction boxes are blocking the road margin on Thiruvalluvar Saalai (Mogappair East) for the past several years.

The open junction boxes are in dilapidated condition.

Garbage is frequently dumped at the spot.

I request BSNL to remove the defunct junction boxes from the spot. **R. Gunadeesan, Thiruvalluvar Saalai, Mogappair East.**

EB junction box resting on compound wall

Sir, As its foundation is damaged, the EB junction box installed opposite our office on Nelson Manickam Road (near Poonamalle High Road junction, Aminjikarai) fell across the road a month back.

As a temporary measure, it was lifted and rested against the compound wall of an adjacent building.

Despite several complaints, no action has been taken to replace the junction box. Many nearby offices and houses dependent on it for power supply are suffering due to frequent voltage fluctuations. As it also a major safety hazard, I appeal to Tamilnadu Electricity Board to replace the junction box early. **S. Gowardhan, Anna Nagar, Ph: 97890 99724.**

Uncleared garbage outside metro station

Sir, Chennai Metro has fixed garbage bins outside Thirumangalam metro station on both sides of 2nd Avenue (Anna Nagar).

As the garbage is not cleared from the bins regularly, it overflows and accumulates on the road margin and pavement. As it is a health hazard, I appeal to the officials concerned to arrange to clear the garbage daily. **R. Subashree, H Block, Anna Nagar, Ph: 97026 33562.**

THE SMILE CORNER
CONSCIOUS SEDATION FOR ANXIOUS AND EXTREMELY NERVOUS DENTAL PATIENTS
Are you very scared and nervous about any dental procedure. Are you anxious or paranoid about having your tooth removed or getting a root canal or surgery done?
Then it's time for you to relax and forget your fears of phobias, because Conscious Sedation Procedure is now available for you.
CONSCIOUS SEDATION is a safe technique used to help patients feel relaxed and comfortable during dental treatment. Patients remain awake and can respond to instructions, but experience reduced anxiety and greater comfort. Conscious Sedation is popularity available in two types. The nasal and the intravenous sedation methods.
NASAL CONSCIOUS SEDATION using nitrous oxide, is a safe, technique to reduce anxiety and discomfort during dental or minor medical procedures. The patient inhales a controlled mixture of nitrous oxide and oxygen and It takes effect within 2-5 minutes, producing a calm, relaxed state while the patient remains fully conscious. It's especially popular in pediatric dentistry and for patients with dental phobia.
INTRAVENOUS CONSCIOUS SEDATION is a Anaesthetist supervised procedure that uses a combination of medications to help a patient relax and block pain while remaining awake and responsive. Recovery is usually quick, often within 30-60 minutes. Both these procedures are a boon and blessing for patients who have a mental block that they cannot sit through a dental procedure.

As the old traffic signal got damaged two months back, a new signal was installed at the junction of New Avadi Road and 1st Avenue (Anna Nagar East) on Sept. 5. It is yet to be commissioned. As pedestrians are finding it difficult to cross the junction, nearby residents request traffic police to commission it early.
